What will you make of it?

NEED A LOT OF SPACE

KEY

5 inches = 2 feet
of actual
studio space

That's why we give every student their own studio space as soon as they declare a major. It's one part of our professional practices program designed to develop the artistic and leadership skills needed to excel in any field. Our students graduate from CIA renowned for their outstanding work ethic and artistic talent— and it begins in their own studio space. What will you make of yours?
